The World Baseball Academy PHILOSOPHY ON INSTRUCTION!

Parents, Players, & Coaches.....Ever Wonder "Why?"

The World Baseball Academy is very **passionate** about using the game of baseball to impact the lives of our future leaders. We see the game of baseball as a tool to help instill confidence and build strong character in young people that will ultimately impact their community well beyond the playing field.

We also feel a very strong responsibility to properly educate young athletes on the game of baseball so they are equipped with the tools of success in order to become confident within the game itself. A major part of our baseball philosophy is to explain the "why." All too often we as coaches explain the "what to do" and the "how to do it" but pass by the "why we do it."

The World Baseball Academy has been privileged to work along side some of the world's top baseball leaders and we learn from them while focusing on the "why" of fundamentals.

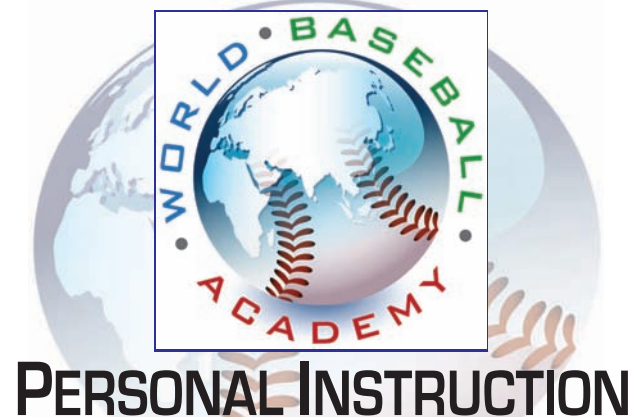

Our philosophy is simple. Empower players with the knowledge and energy to achieve great things and watch them take off!

OUR PURPOSE:

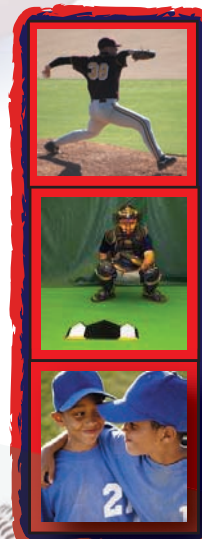

While we feel our Group Training Programs offer solid instructional information that is still very cost effective for parents and players, we do understand the need for personal attention when it comes to teaching the fundamentals of the game.

Therefore, we provide Personal Instruction in a One-on-One environment.

The personalized attention with One-on-One Training can be very helpful to any athlete in enhancing their skill level and knowledge. The World Baseball Academy feels very strongly that it is crucial to create an encouraging environment for these players to work on the small things that will make them better players as well as better people!
